- 45 Day Review Period for the 2008 Master Plan Program EIR Commencing May 10, 2011. [Review the Documents Here](#)

- **California's 20% By 2020 Conservation Plan:**

Join Vallecitos Water District on the Road to 2020 – A Perfect View to a Reliable Water Future. Following similar Board actions of its wholesalers, the Metropolitan Water District of Southern California and San Diego County Water Authority, Vallecitos Water District Board of Directors downgraded its Drought Alert, ending all mandatory water-use restrictions and drought-rate pricing. However, Vallecitos staff asks all customers to continue living a water-wise lifestyle. The District will be adhering to SBX7-7 – a new state water conservation mandate requiring 20 percent water use reduction by 2020. Customers maintaining current levels of conservation will be essential to navigating us to compliance in the future. [Click here for more information.](#)
